

West Moors Middle school song

West Moors Middle School where minds move skywards
The best place to grow and learn
Our lizard badge is a symbol of our family
Our school is united and that's how we like it

Fresh summer fields,
School trips and laughter
Chilling in the grass under the oak trees
Walking through the courtyard,
Running in the field
The sound of friends playing in the summer breeze

West Moors Middle School where minds move skywards
The best place to grow and learn
Our lizard badge is a symbol of our family
Our school is united and that's how we like it

Smiles down the hall,
The teamwork of football
Each opportunity, a memory
Friends in our music,
Together having fun
Everyone should have a friend that they can call bestie

West Moors Middle School where minds move skywards
The best place to grow and learn
Our lizard badge is a symbol of our family
Our school is united and that's how we like it

If you push your limits,
You can get out the pit
Gotta get going with a growth mind set
The teachers understand,
When you're struggling
Don't say "I can't do it" – say "I can't do it yet!"

West Moors Middle School where minds move skywards
The best place to grow and learn
Our lizard badge is a symbol of our family
Our school is united and that's how we like it
Our school is united and that's how we like it
Our school is united and that's how we like it
