1st March 2022

Dear Parents and Carers,

This term, we will be starting a new after school club. It will commence this Thursday 3rd March. It is an exciting opportunity for children to learn skills in a fun and exciting way. It will be led by Miss Palamountain and supported by the school's Digital leaders. I have added some more information below.

What is Code Club?

We provide free projects and resources for schools to start their own free Code Clubs. In the clubs, young people aged 9–13 create games, animations, and websites using computers by following our specially tailored [step-by-step project guides](#).

Code Clubs take place in schools and for the schools' students. The clubs normally run for one hour a week and have around 15-20 participants.

What do young people learn at Code Club?

At Code Clubs, young people use our free [step-by-step project guides](#) to create computer programs and learn coding concepts along the way.

What is coding?

Coding is giving instructions to a computer to tell it to do things. Learning to code is a bit like learning a second language, because to give instructions to a computer, you need to put the instructions into a language the computer understands.

If your child would like to attend this club, please can parents sign the slip and return it to the school office. Due to the nature of the club, we will only be able to support 15- 20 children in the club. As with other clubs it will finish at 4.30pm

Kind Regards,

Miss Palamountain
