# Welcome to Year 5

Mrs Burns

Miss Willis

There are 2 year 5 classrooms.

They are rooms 5 and 6.

They are next to each other.

You will spend most lessons with your class teacher.

You will do most of your learning in your classroom.

At West Moors Middle School each pupil is given their own classroom tray. You will be able to keep your school bags, PE kits and coats in your classrooms.

These are the toilets near the Year 5 classrooms.

Anyone from Y5 can use them during break and lunch time.

# Important Rooms

This is the school library.

You will be able to get out books with your library number to take home and read.

The library is open at lunch time for you to do this.

This is the reading room.

It is opposite the year 5 classrooms.

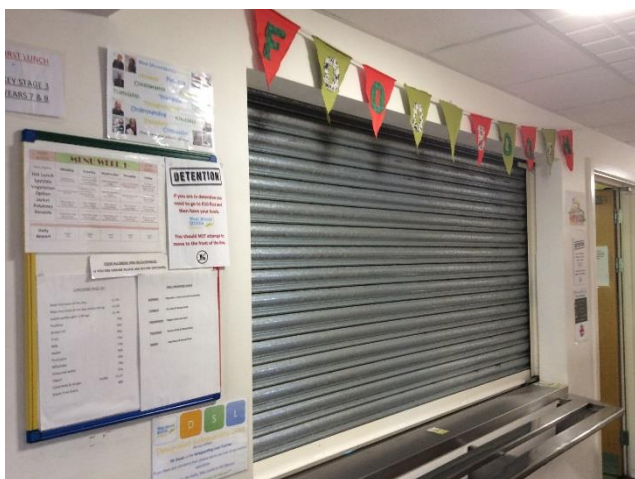

Pupils come in here to work in small groups with a teaching assistant.

This is the Pastoral Support team.

Sometimes you may work with Mrs Beaven or Mrs James

This is the canteen.

This is where you can get a break time snack and your hot school meal.

You collect your tray and cutlery and line up to the left of the hatch.

Once you have finished eating you take your dirty plate to a trolley, so that the hall is kept clean and tidy.

This is the school hall.

The hall is used for year group/ key stage assemblies.

The hall is also where you will eat your lunch.

PE is also done in the hall.

This is CHIP.

CHIP is one of our computer suites.

We have two computer suites.

The other is called PIN where we have a class set of iPads and laptops to enable our children to carry out research.

# Chameleon HQ

Some students will be in the CCN Base.

This is the door to the CCN Base.

This is the Chameleon HQ classroom.

Chameleon students will do some lessons here.

This is the main office in the CCN Base.

Next door is the Sensory Room

Pupils in the CCN Base use this area for sensory breaks.

# Outside Spaces

This is The Courtyard.

There is a covered seating area where you can eat your lunch in the sunshine if you want to.

This is the play trail.

You can play on this at break and lunchtimes.

This is the Eco Garden.

It is looked after by the Eco Club.

You can sit in the Eco Garden for quiet time.

This the play area.

You are not able to play on it without an adult watching you.

An adult will tell you when you are allowed to play on it.

This is the bike shed.

If you cycle or scoot to school you lock your bike or scooter here to keep them safe and dry.

You must bring your own lock and helmet.

This is the pond area where our children can go pond dipping with adult supervision and learn about nature.

This is used to support our learning in Science and Topic and provides children with an invaluable outdoor learning opportunity.

This is our Forest School site where children are learning outdoors and have a wonderful chance to connect with nature.

This evidence-based, learning opportunity supports the development of children's self-esteem and resilience which in turn will stand them in good stead for their futures.

For many of our children, this has proved to be a real highlight of their week!

This is our exciting new gardening development in 2021- An amazing polytunnel has been built to provide our children with an opportunity to grow their own fruit and vegetables!

Presently, our Eco Warriors are diligently watering our planted seeds daily!

All produce grown will be used as snacks for our children to enjoy as well as ingredients for recipes in cookery lessons!
