

Tuesday 10<sup>th</sup> May 2022

Dear Parents/Carers,

**Year 7 Visit to Beaulieu Motor Museum – Thursday 21<sup>st</sup> July 2022**

As we approach the end of Year 7 we wish to organise an educational trip to celebrate the learning journey that the pupils have made over the year. We would like to visit Beaulieu Motor Museum giving pupils the opportunity to practise and progress mathematical skills and demonstrate the application of numeracy to the motor vehicle. There will be museum-based activities that investigate how cars work and include speed, forces, friction, data collection, analysis, measurement and symmetry.

We will be travelling by coach which will be leaving at 9 am to arrive at the museum for our session which will involve a tour of the Motor Museum, an engineering activity and some free time to explore the exhibits. We will leave the museum at 2 pm with the aim of arriving back in time for the end of the school day.

The voluntary contribution needed for the trip is £15 (£7.50 entry plus £7.50 for transport/ pupil). Unfortunately, to keep the cost low, at this price, we need at least 45 pupils to attend. If there are insufficient numbers, we cannot organise the trip, so at this stage I am enquiring to see how many pupils would like to attend.

**Please return the slip below to school if you wish your child to attend the trip to Beaulieu Motor Museum by Friday 13<sup>th</sup> May 2022, to enable us to determine the feasibility of this educational visit.**

**No money is required at this stage.**

Thank you for your support with this possible visit and we look forward to your response.

Yours sincerely,

Mr Déer (Maths lead and Year 7 tutor)

**PLEASE RETURN THIS FORM IF YOU WISH YOUR CHILD TO ATTEND THIS TRIP, THANK YOU.**
