

West Moors Middle School

Our Curriculum Intent

At West Moors Middle School, we are passionate about serving and enriching our local community. Our overall aim is to develop confident, caring and capable young people who will thrive in a 21st century Britain and its place in the wider world. We believe school should reflect our aspirations for a responsible and prosperous society, so everything we do is underpinned by our **community values**:

Inclusivity	Respect	Fairness	Honesty	Understanding	Kindness
-------------	---------	----------	---------	---------------	----------

We also want our pupils to be life-long learners who are curious to discover new knowledge and skills as well as being ambitious for their own future. Our **learning values** are key characteristics for success:

Resilience	Reflectiveness	Creativity	Independence
------------	----------------	------------	--------------

We aim to enrich and contextualise the national curriculum in a way that reflects this overarching intent, providing an inclusive, broad and balanced learning experience.
